

Activities after NASE Course

Location: St Andrew Kagwa Primary School, Nyamira, Kenya

Contents of the activity: Astronomy club on Spectroscopy

Taught to primary school students

Date: November 7th, 2013

Person in Charge: Samson Mutanga

Pictures (one or two photos)

After NASE course in October 2013 we have formed an astronomy club where we have managed to pass the knowledge to the other members, that is, astronomy students in first, second and third year in the university. Some of us had an abrupt activity in a school and took some photos
